

Course	Day 1	Day 2	Day 3	Day 4	Day 5
9.30-10.20	Practical arrangements (AG) Use of desktops (CM)	Webinar: Forecasting extreme events (IT)	Forecasting tropical cyclones in the medium range (FP)	Webinar: Clouds and precipitation: from model to forecasting (RF)	Taking stock: verification and observations (AG)
10.30 - 10.55	Break	break	break	break	break
11.00 - 11.50	Introducing ECMWF (AG) (11.00 - 11.30)	Webinar: Extra-tropical cyclones (TH)	Instructor led activity: Forecast jumpiness (TH)	Laboratory	Data Assimilation (LI)
11.55 - 12.50	Ensemble forecasting (DR) 11.30 - 12.20 GAME (12.20 - 1300)	Seasonal forecasting (LF)	Model Physics (PB)	Laboratory	Self study (student presentations)
13.00 - 13.45	lunch	lunch	lunch	lunch	lunch
13.45 -14.10	Webinar: Understanding the model climate (LM) (13.45 - 14.30)	Forecasting exercise (ecCharts +web) (AG+EZ)	Forecasting exercise (ecCharts + web) (AG+EZ)	Forecasting exercise (ecCharts + web) (AG+EZ)	Evaluation Forecasting exercise (AG+EZ)
14.15 - 15.05	Webinar: Monthly Forecast (LF) 14.30 - 15.20	Webinar: Model errors and diagnostic tools (MR)	Satellite observations (MD)	Ocean Waves (JB)	Lab exercises: students presentations
15.10 - 15.30	ecCharts (CS) (start 15.25)	Laboratory	Laboratory	Laboratory	Lab exercises: students presentations
15.30 - 15.55	break	Break	break	break	Q&A
16.00 - 17.00	ecCharts (CS) (finish: 17.15)	Laboratory	Laboratory	Laboratory	

Monday: 5.00 to 7.15 pm : Cocktails and poster viewing
